ABOUT ME

I am a hard-working, high energy, and personable individual. In 2018 I backpacked through South East Asia for 6 months, immersing myself in new cultures while pursuing my love for photography by documenting my experiences through image. This experience enhanced my communication skills, leading me to become more patient and understanding, as well as confident in speaking to strangers. I am a very creative individual, creating videos and graphics for marketing usage, album covers, web developments, as well as digital art, examples can be seen on my portfolio website. In my free time my interests include sustainability, cooking, film and yoga. I am available from September 15th 2020.
